

Make Friends

@MakeFriendsTO

Make Friends is a meetup and workshop series for curious people interested in technology, art, and education. Currently we are looking for community partners to help us provide programming and events on a variety of topics in 2018.

Make Friends is a monthly meet up of creative people in Toronto who are curious about technology, art, education, and making things. Each month Make Friends brings together experts and self directed researchers to share knowledge with the community on a variety of subjects from issues of Internet security and crypto currency, to exploring green technologies to bio hacking and programming. Our approach to learning values inviting people with different lived experiences who come from many industries and backgrounds to participate. Meetups usually consist of lectures, hands on exercises or collaborative activities.

Anyone is welcome to join us for free for discussion, snacks and collaboration at **TinEye** (223 Queen St East) the **last Thursday of every month**.

Make Friends Meetup strives to create an open environment to share information, learn new skills and collaborate with the creative community in Toronto. It is important to us to engage a diverse community, and engage with a wide pool of knowledge and expertise. We are interested in hearing from anyone interested in sharing expertise on something they're passionate about. You can contact us at q@littledada.ca

Get Involved!

Currently, Make Friends is looking for sponsorship to continue running our free events. Our goal is to not only provide the community with free access to knowledge, events, and networking, but also to pay experts and emerging researchers for their time. **Funding allows Make Friends to access diverse communities, share knowledge, and expand the creative community in the city.**

By supporting Make Friends, your organization will support growing a more diverse, tech savvy, and engaged creative community in Toronto.

Make Friends has been providing community programming for going on 3 years for every month, including a conference called Make Change. Every year, we directly reach 500+ people through workshops and community initiatives.

We have a very small team, so sponsorship can go very far! Here are a few ways you can support us.

Sponsorship

Gold level sponsor
